Conscious that the value of the standardized reporting system would be enhanced by a broader participation of Member States,

Welcoming, therefore, the report of the Secretary-General[1] on ways and means to implement the guidelines and recommendations for objective information on military matters, including, in particular, how to strengthen and broaden participation in the standardized reporting system,

Recalling that the guidelines and recommendations for objective information on military matters recommended certain areas for further consideration, such as the improvement of the standardized reporting system,

(*b*) To circulate annually the reports on military expenditures as received from Member States;

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly,[1] the first special session devoted to disarmament, in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling the relevant parts of the special report of the Committee on Disarmament[2] submitted to the General Assembly at its twelfth special session,[3] the second special session devoted to disarmament, and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session,[4] the third special session devoted to disarmament, as well as the report of the Conference on its 1992 session,[5]

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, which states, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,[6] with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the relevant decision of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, held at Kuala Lumpur on 24 and 25 February 2003,[7] which was reiterated at the Fourteenth Conference of Heads of State or Government of Non-Aligned Countries, held at Havana on 15 and 16 September 2006,[8] as well as the relevant recommendations of the Organization of the Islamic Conference,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990, 46/32 of 6 December 1991, 47/50 of 9 December 1992, 48/73 of 16 December 1993, 49/73 of 15 December 1994, 50/68 of 12 December 1995, 51/43 of 10 December 1996, 52/36 of 9 December 1997, 53/75 of 4 December 1998, 54/52 of 1 December 1999, 55/31 of 20 November 2000, 56/22 of 29 November 2001, 57/56 of 22 November 2002, 58/35 of 8 December 2003, 59/64 of 3 December 2004, 60/53 of 8 December 2005 and 61/57 of 6 December 2006,

1. *Reaffirms* the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;

3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. *Recommends* that further intensive efforts be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, be explored further in order to overcome the difficulties;

5. *Also recommends* that the Conference on Disarmament actively continue intensive negotiations with a view to reaching early agreement and concluding effective international agreements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. *Decides* to include in the provisional agenda of its sixty-third session the item entitled "Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons".

Resolution adopted by the General Assembly

[*on the report of the First Committee (A/62/389)*]

62/20. Prevention of an arms race in outer space

The General Assembly,

Recognizing the common interest of all mankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also the provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,[1]

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,[2] in which it is stated that in order to prevent an arms race in outer space, further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue, and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions, and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

---

[1] United Nations, *Treaty Series*, vol. 610, No. 8843.

[2] Resolution S-10/2.

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space,[3] and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Noting also that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to re-examination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992,[4]

Emphasizing the mutually complementary nature of bilateral and multilateral efforts in the field of preventing an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling, in this context, its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as a means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Ad Hoc Committee and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

Noting with satisfaction the constructive, structured and focused debate on the prevention of an arms race in outer space at the Conference on Disarmament in 2007,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;[1]

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime

applicable to outer space does not in and of itself guarantee the prevention of an arms race in outer space, that the regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

3. *Emphasizes* the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. *Calls upon* all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. *Reiterates* that the Conference on Disarmament, as the sole multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. *Invites* the Conference on Disarmament to complete the examination and updating of the mandate contained in its decision of 13 February 1992[4] and to establish an ad hoc committee as early as possible during its 2008 session;

7. *Recognizes*, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence and security in the peaceful uses of outer space;

8. *Urges* States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral and multilateral negotiations on the matter, if any, so as to facilitate its work;

9. *Decides* to include in the provisional agenda of its sixty-third session the item entitled "Prevention of an arms race in outer space".

Resolution adopted by the General Assembly

[*on the report of the First Committee (A/62/391)*]

62/24. Follow-up to nuclear disarmament obligations agreed to at the 1995 and 2000 Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons

The General Assembly,

Recalling its various resolutions in the field of nuclear disarmament, including its most recent, resolutions 60/72 of 8 December 2005, and 61/78, 61/83 and 61/97 of 6 December 2006,

Bearing in mind its resolution 2373 (XXII) of 12 June 1968, the annex to which contains the Treaty on the Non-Proliferation of Nuclear Weapons,[1]

Noting the provisions of article VIII, paragraph 3, of the Treaty regarding the convening of review conferences at five-year intervals,

Recalling its resolution 50/70 Q of 12 December 1995, in which the General Assembly noted that the States parties to the Treaty affirmed the need to continue to move with determination towards the full realization and effective implementation of the provisions of the Treaty, and accordingly adopted a set of principles and objectives,

Recalling also that, on 11 May 1995, the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons adopted three decisions on strengthening the review process for the Treaty, principles and objectives for nuclear non-proliferation and disarmament, and extension of the Treaty,[2]

Reaffirming the resolution on the Middle East adopted on 11 May 1995 by the 1995 Review and Extension Conference of the Parties to the Treaty,[2] in which the Conference reaffirmed the importance of the early realization of universal adherence to the Treaty and placement of nuclear facilities under full-scope International Atomic Energy Agency safeguards,

Reaffirming also its resolution 55/33 D of 20 November 2000, in which the General Assembly welcomed the adoption by consensus on 19 May 2000 of the

Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,[3] including, in particular, the documents entitled "Review of the operation of the Treaty, taking into account the decisions and the resolution adopted by the 1995 Review and Extension Conference" and "Improving the effectiveness of the strengthened review process for the Treaty",[4]

Taking into consideration the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference of the Parties to the Treaty, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties to the Treaty are committed under article VI of the Treaty,

Gravely concerned over the failure of the 2005 Review Conference of the Parties to the Treaty to reach any substantive agreement on the follow-up to the nuclear disarmament obligations,

Noting that the Preparatory Committee for the 2010 Review Conference of the Parties to the Treaty held a successful first meeting in Vienna in April/May 2007,

1. *Determines* to pursue practical steps for systematic and progressive efforts to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons[1] and paragraphs 3 and 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;[2]

2. *Calls for* practical steps, as agreed to at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to be taken by all nuclear-weapon States that would lead to nuclear disarmament in a way that promotes international stability and, based upon the principle of undiminished security for all, for:

(*a*) Further efforts to be made by the nuclear-weapon States to reduce their nuclear arsenals unilaterally;

(*b*) Increased transparency by the nuclear-weapon States with regard to nuclear weapons capabilities and the implementation of agreements pursuant to article VI of the Treaty and as a voluntary confidence-building measure to support further progress in nuclear disarmament;

(*c*) The further reduction of non-strategic nuclear weapons, based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

(*d*) Concrete agreed measures to reduce further the operational status of nuclear weapons systems;

(*e*) A diminishing role for nuclear weapons in security policies so as to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

(*f*) The engagement, as soon as appropriate, of all the nuclear-weapon States in the process leading to the total elimination of their nuclear weapons;

3. *Notes* that the 2000 Review Conference of the Parties to the Treaty agreed that legally binding security assurances by the five nuclear-weapon States to the non-nuclear-weapon States parties to the Treaty strengthen the nuclear non-proliferation regime;

4. *Urges* the States parties to the Treaty to follow up on the implementation of the nuclear disarmament obligations under the Treaty agreed to at the 1995 and 2000 Review Conferences of the Parties to the Treaty within the framework of the 2010 Review Conference of the Parties to the Treaty and its Preparatory Committee;

62/26. National legislation on transfer of arms, military equipment and dual-use goods and technology

The General Assembly,

Recognizing that disarmament, arms control and non-proliferation are essential for the maintenance of international peace and security,

Recalling that effective national control of the transfer of arms, military equipment and dual-use goods and technology, including those transfers that could contribute to proliferation activities, is an important tool for achieving those objectives,

Recalling also that the States parties to the international disarmament and non-proliferation treaties have undertaken to facilitate the fullest possible exchange of materials, equipment and technological information for peaceful purposes, in accordance with the provisions of those treaties,

Considering that the exchange of national legislation, regulations and procedures on the transfer of arms, military equipment and dual-use goods and technology contributes to mutual understanding and confidence among Member States,

Convinced that such an exchange would be beneficial to Member States that are in the process of developing such legislation,

Welcoming the electronic database established by the Office for Disarmament Affairs,[1] in which all information exchanged pursuant to General Assembly resolutions 57/66 of 22 November 2002, 58/42 of 8 December 2003, 59/66 of 3 December 2004 and 60/69 of 3 December 2005, entitled "National legislation on transfer of arms, military equipment and dual-use goods and technology", can be consulted,

Reaffirming the inherent right of individual or collective self-defence in accordance with Article 51 of the Charter of the United Nations,

1. *Invites* Member States that are in a position to do so, without prejudice to the provisions contained in Security Council resolutions 1540 (2004) of 28 April 2004 and 1673 (2006) of 27 April 2006, to enact or improve national legislation, regulations and procedures to exercise effective control over the transfer of arms, military equipment and dual-use goods and technology, while ensuring that such legislation, regulations and procedures are consistent with the obligations of States parties under international treaties;

2. *Encourages* Member States to provide, on a voluntary basis, information to the Secretary-General on their national legislation, regulations and procedures on the transfer of arms, military equipment and dual-use goods and technology, as well as the changes therein, and requests the Secretary-General to make that information accessible to Member States;

Resolution adopted by the General Assembly

[*on the report of the First Committee (A/62/391)*]

62/27. Promotion of multilateralism in the area of disarmament and non-proliferation

The General Assembly,

Determined to foster strict respect for the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolution 56/24 T of 29 November 2001 on multilateral cooperation in the area of disarmament and non-proliferation and global efforts against terrorism and other relevant resolutions, as well as its resolutions 57/63 of 22 November 2002, 58/44 of 8 December 2003, 59/69 of 3 December 2004, 60/59 of 8 December 2005 and 61/62 of 6 December 2006 on the promotion of multilateralism in the area of disarmament and non-proliferation,

Recalling also the purpose of the United Nations to maintain international peace and security and, to that end, to take effective collective measures for the prevention and removal of threats to the peace and for the suppression of acts of aggression or other breaches of the peace, and to bring about by peaceful means, and in conformity with the principles of justice and international law, adjustment or settlement of international disputes or situations which might lead to a breach of the peace, as enshrined in the Charter,

Recalling further the United Nations Millennium Declaration,[1] which states, inter alia, that the responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

Convinced that, in the globalization era and with the information revolution, arms regulation, non-proliferation and disarmament problems are more than ever the concern of all countries in the world, which are affected in one way or another by these problems and, therefore, should have the possibility to participate in the negotiations that arise to tackle them,

[1] See resolution 55/2.

Bearing in mind the existence of a broad structure of disarmament and arms regulation agreements resulting from non-discriminatory and transparent multilateral negotiations with the participation of a large number of countries, regardless of their size and power,

Aware of the need to advance further in the field of arms regulation, non-proliferation and disarmament on the basis of universal, multilateral, non-discriminatory and transparent negotiations with the goal of reaching general and complete disarmament under strict international control,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on disarmament,

Recognizing also that the proliferation and development of weapons of mass destruction, including nuclear weapons, are among the most immediate threats to international peace and security which need to be dealt with, with the highest priority,

Considering that the multilateral disarmament agreements provide the mechanism for States parties to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of, the provisions of the agreements and that such consultations and cooperation may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with the Charter,

Stressing that international cooperation, the peaceful settlement of disputes, dialogue and confidence-building measures would contribute essentially to the creation of multilateral and bilateral friendly relations among peoples and nations,

Being concerned at the continuous erosion of multilateralism in the field of arms regulation, non-proliferation and disarmament, and recognizing that a resort to unilateral actions by Member States in resolving their security concerns would jeopardize international peace and security and undermine confidence in the international security system as well as the foundations of the United Nations itself,

Noting that the Fourteenth Conference of Heads of State or Government of Non-Aligned Countries, held at Havana on 15 and 16 September 2006, welcomed the adoption of General Assembly resolution 60/59, and underlined the fact that multilateralism and multilaterally agreed solutions, in accordance with the Charter, provide the only sustainable method of addressing disarmament and international security issues,

Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

1. *Reaffirms* multilateralism as the core principle in negotiations in the area of disarmament and non-proliferation with a view to maintaining and strengthening universal norms and enlarging their scope;

2. *Also reaffirms* multilateralism as the core principle in resolving disarmament and non-proliferation concerns;

3. *Urges* the participation of all interested States in multilateral negotiations on arms regulation, non-proliferation and disarmament in a non-discriminatory and transparent manner;

4. *Underlines* the importance of preserving the existing agreements on arms regulation and disarmament, which constitute an expression of the results of

international cooperation and multilateral negotiations in response to the challenges facing mankind;

5. *Calls once again upon* all Member States to renew and fulfil their individual and collective commitments to multilateral cooperation as an important means of pursuing and achieving their common objectives in the area of disarmament and non-proliferation;

6. *Requests* the States parties to the relevant instruments on weapons of mass destruction to consult and cooperate among themselves in resolving their concerns with regard to cases of non-compliance as well as on implementation, in accordance with the procedures defined in those instruments, and to refrain from resorting or threatening to resort to unilateral actions or directing unverified non-compliance accusations against one another to resolve their concerns;

7. *Takes note* of the report of the Secretary-General containing the replies of Member States on the promotion of multilateralism in the area of disarmament and non-proliferation, submitted pursuant to resolution 61/62;[2]

8. *Requests* the Secretary-General to seek the views of Member States on the issue of the promotion of multilateralism in the area of disarmament and non-proliferation and to submit a report thereon to the General Assembly at its sixty-third session;

9. *Decides* to include in the provisional agenda of its sixty-third session the item entitled "Promotion of multilateralism in the area of disarmament and non-proliferation".

Taking note of the report of the Secretary-General submitted pursuant to resolution 61/63,[1]

Mindful of the detrimental environmental effects of the use of nuclear weapons,

1. *Reaffirms* that international disarmament forums should take fully into account the relevant environmental norms in negotiating treaties and agreements on disarmament and arms limitation and that all States, through their actions, should contribute fully to ensuring compliance with the aforementioned norms in the implementation of treaties and conventions to which they are parties;

2. *Calls upon* States to adopt unilateral, bilateral, regional and multilateral measures so as to contribute to ensuring the application of scientific and technological progress within the framework of international security, disarmament and other related spheres, without detriment to the environment or to its effective contribution to attaining sustainable development;

Recalling also that, there being a consensus to do so in each case, three special sessions of the General Assembly devoted to disarmament were held in 1978, 1982 and 1988, respectively,

Bearing in mind the Final Document of the Tenth Special Session of the General Assembly, adopted by consensus at the first special session devoted to disarmament,[1]

Bearing in mind also the ultimate objective of general and complete disarmament under effective international control,

Taking note of paragraph 80 of the Final Document of the Fourteenth Conference of Heads of State or Government of Non-Aligned Countries, held at Havana on 15 and 16 September 2006,[2] which supported the convening of the fourth special session of the General Assembly devoted to disarmament, which would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the process of disarmament and to mobilize the international community and public opinion in favour of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons,

Recalling the United Nations Millennium Declaration, adopted by the Heads of State and Government during the Millennium Summit of the United Nations, held

Reiterating its conviction that a special session of the General Assembly devoted to disarmament can set the future course of action in the fields of disarmament, arms control, non-proliferation and related international security matters,

Emphasizing the importance of multilateralism in the process of disarmament, arms control, non-proliferation and related international security matters,

Taking note of the paper presented by the Chairman of Working Group II during the 1999 substantive session of the Disarmament Commission,[4] and the written proposals and views submitted by Member States as contained in the working papers presented during the three substantive sessions of the Open-ended Working Group in 2003[5] as well as the reports of the Secretary-General regarding the views of Member States on the objectives, agenda and timing of the fourth special session of the General Assembly devoted to disarmament,[6]

Determined to promote multilateralism as an essential means to carry forward negotiations on arms regulation and disarmament,

Convinced that as humankind is more aware of the need to take immediate measures to protect the environment, any event that could jeopardize such efforts requires urgent attention to implement the required measures,

Taking into consideration the potential harmful effects of the use of armaments and ammunitions containing depleted uranium on human health and the environment,

1. *Requests* the Secretary-General to seek the views of Member States and relevant international organizations on the effects of the use of armaments and ammunitions containing depleted uranium, and to submit a report on this subject to the General Assembly at its sixty-third session;

The General Assembly,

Recalling its resolution 60/56 of 8 December 2005, entitled "Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments", and its resolution 61/69 of 6 December 2006, entitled "Nuclear-weapon-free southern hemisphere and adjacent areas",

Welcoming the desire of the South-East Asian States to maintain peace and stability in the region in the spirit of peaceful coexistence and mutual understanding and cooperation,

Reaffirming its conviction of the important role of nuclear-weapon-free zones in strengthening the nuclear non-proliferation regime and in extending the areas of the world that are nuclear-weapon-free, and, with particular reference to the responsibilities of the nuclear-weapon States, calling upon all States to support the process of nuclear disarmament and to work for the total elimination of all nuclear weapons,

Convinced that the establishment of a South-East Asia Nuclear-Weapon-Free Zone, as an essential component of the Declaration on the Zone of Peace, Freedom and Neutrality, signed in Kuala Lumpur on 27 November 1971, will contribute towards strengthening the security of States within the Zone and towards enhancing international peace and security as a whole,

Noting the entry into force of the Treaty on the South-East Asia Nuclear-Weapon-Free Zone on 27 March 1997[1] and the tenth anniversary of its entry into force in 2007,

62/32. Reducing nuclear danger

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

Emphasizing the need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomaly or other technical malfunctions,

Conscious that limited steps relating to de-alerting and de-targeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that a diminishing role for nuclear weapons in the security policies of nuclear-weapon States would positively impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly[1] and by the international community,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*[2] that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Recalling also the call in the United Nations Millennium Declaration[3] to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls for* a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons, including through de-alerting and de-targeting of nuclear weapons;

2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 above;

3. *Calls upon* Member States to take the necessary measures to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;

4. *Takes note* of the report of the Secretary-General submitted pursuant to paragraph 5 of General Assembly resolution 61/85 of 6 December 2006;[4]

5. *Requests* the Secretary-General to intensify efforts and support initiatives that would contribute towards the full implementation of the seven recommendations identified in the report of the Advisory Board on Disarmament Matters that would significantly reduce the risk of nuclear war,[5] and also to continue to encourage Member States to consider the convening of an international conference as proposed in the United Nations Millennium Declaration,[3] to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its sixty-third session;

Welcoming the entry into force on 7 July 2007 of the International Convention for the Suppression of Acts of Nuclear Terrorism,[1]

Welcoming also the adoption, by consensus, of amendments to strengthen the Convention on the Physical Protection of Nuclear Material[2] by the International Atomic Energy Agency on 8 July 2005,
